

PCNE 2013

8th Working Conference Akademie Berlin-Schmockwitz 6-8th February

Tim Chen
The University of Sydney

My Brief (the objectives)

- Overview of the conference the culture
- Show some photos
- Any anecdotes funny stories

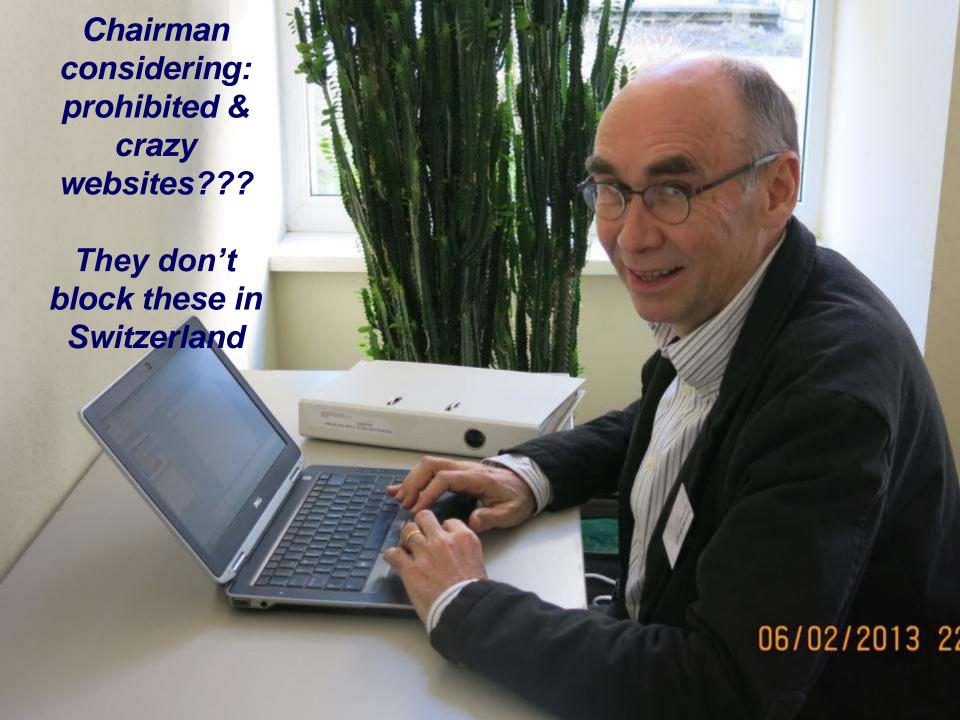

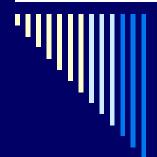

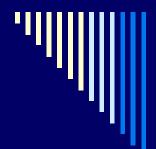

Reflections – PCNE 2013

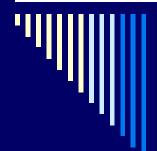

Two key "Quality Indicators" for Success

- All delegates have been able to participate in robust academic discussion but in a supportive and friendly way
- Great balance of collegiate working, socialising, networking for all ... people feel comfortable contributing

Contributing Factors

- Thank the organising committee especially Kurt and Nina
 - Charlotte Rossing
 - Prof Maria Cordina
 - Mary Tully
 - Nina Griese
 - Veerle Foulon & Seppe! (99+1=100)
 - Foppe van Mil
 - Kurt Hersberger
 - Olivier Bugnon

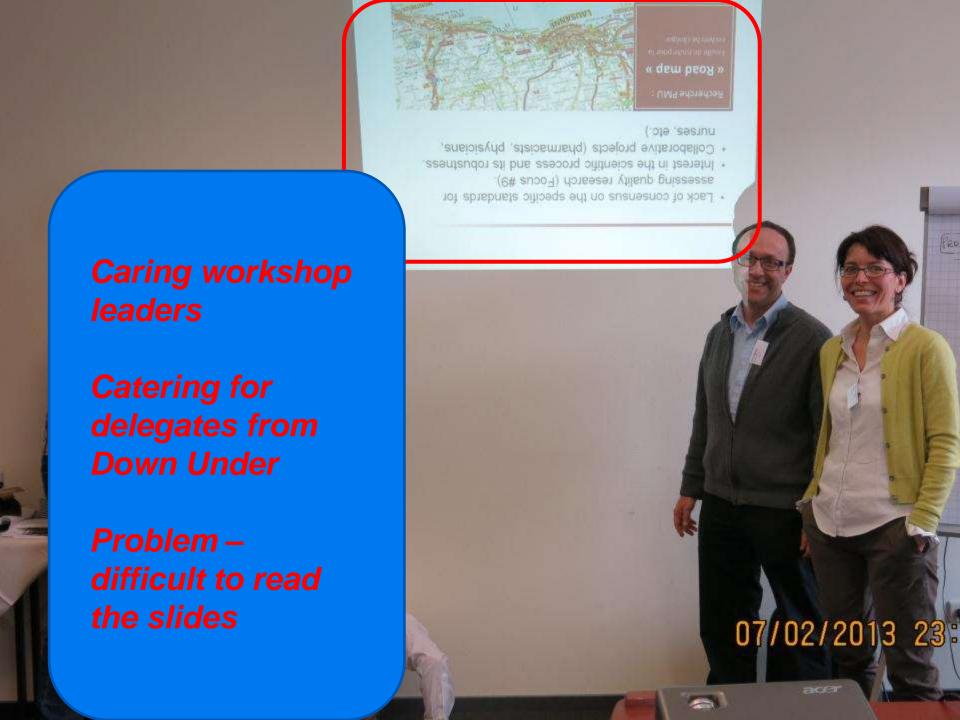

Contributing Factors

- PCNE Sponsors special thanks Martin
 Schultz kept the cost down
- □ The support staff ... students
- Delegates who have been provided with such a stimulating academic programme

Thought Provoking Lectures

- □ Giannoula Tsakitzidis, Belgium
- Excellent presentation on her experience in developing interprofessional educational modules
- □ Key messages:
- 1. Take care with the terminology and definitions
- Shared vision amongst team members
- 3. Team work & problem solving together ...

1

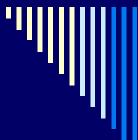

Clivier Burnott, Mane Paule, Schneder (Switzstand) and Mintin Henrigo (freland)

Workshop 4: Quality standards for (collaborative) pharmaceutical care research

Collaborative pharmaceutical care in research and practice pour Working Conference, 6-8 February 2013, Berlin, Germany

07/02/2013 01:

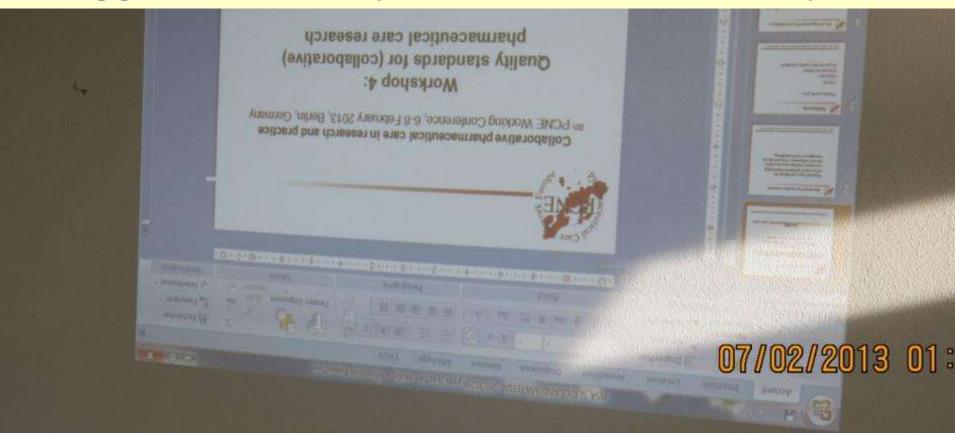

No problems for Australians Australia - A Land Down Under

Translation for non-Australians Workshop 4: Quality Standards for Collaboration Pharmaceutical Care Research

Suggestion: Quality Standards for data projection

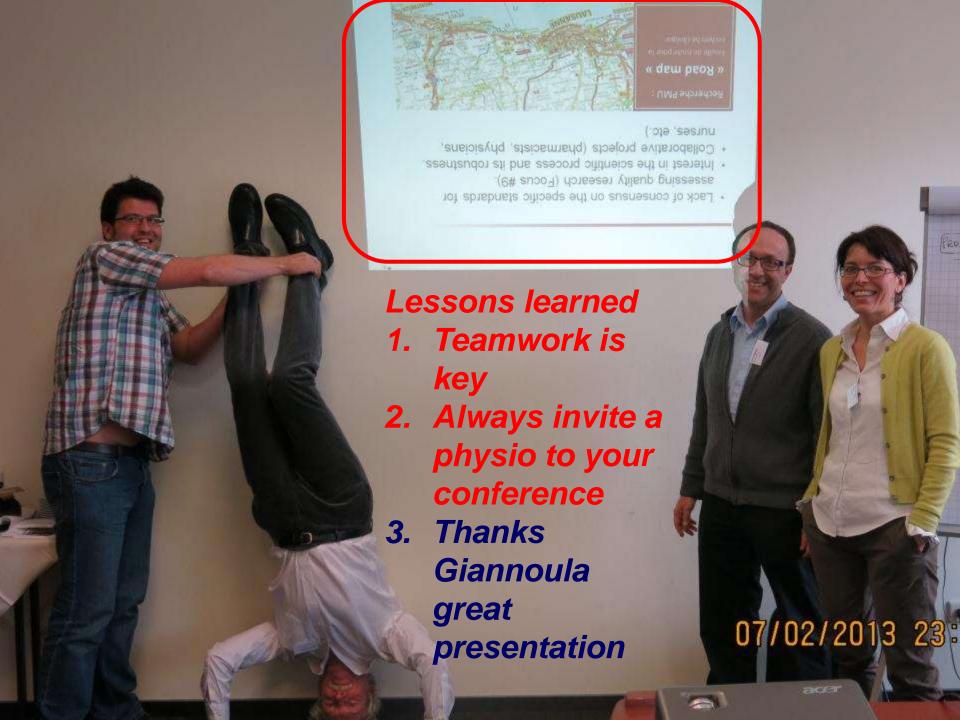

Delegate participation!

Teamwork!

Thanks Martin! Thanks Fernando!

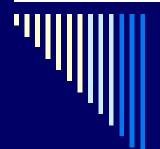

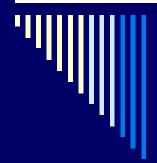

Though Provoking Lectures

Thought Provoking Lectures

- Dr Alison Roberts, Australia
- Great presentation on the challenges ahead for the implementation of PC services
- □ Key messages:
- Successful in terms of having important structures in place (Government funding)
- Still have significant challenges ahead in terms of implementation

Thought Provoking Lectures

- Dr Mark Xuereb, Malta
- Great lecture making us think about the human side to collaborative practice
- Key messages
- We are all human and our emotions & behaviours are connected
- 2. We need to take care of the child inside us

Finally thinking back over the past few days

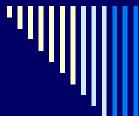

- Covered a lot of topics
- Great conference
- Worked hard
- Enjoyed the socialising and networking
- □ Access to (most) facilities eg WiFi

Finally thinking back over the past few days

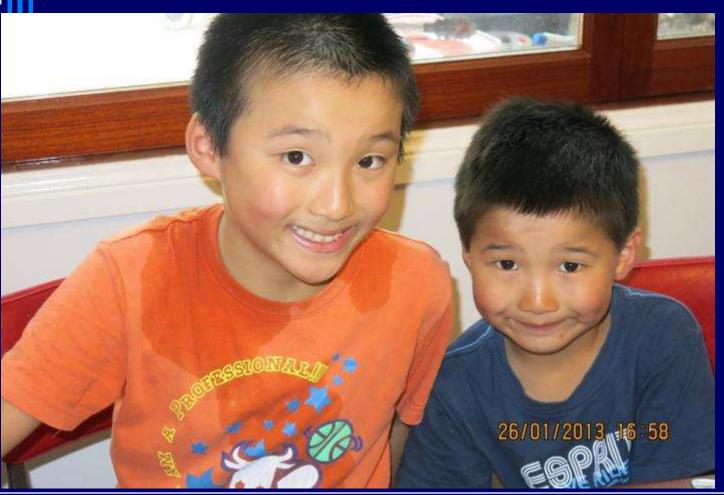

- Covered a lot of topics
- Great conference
- Worked hard
- Enjoyed the socialising and networking
- Access to (most facilities) WiFi

Except: PROHIBITED + CRAZY

What would my kids do in this situation?

Australia Day 26th January 2013

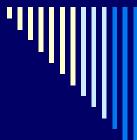

Akademie Berlin Schmockwitz

PROHIBITED + CRAZY = ?

Youtube + Gangnam style = ?

Akademie Berlin Schmockwitz

PROHIBITED + CRAZY = ?

Youtube + Gangnam style = ?

CONCLUSION:

Schmockwitz staff don't want guests to watch the most downloaded youtube clip in history – Gangnam style

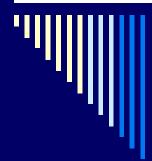

Akademie Berlin Schmockwitz

Youtube + Gangnam style = ?

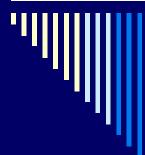

Ethical Dilemma:

Should I test this out and take care of the child inside me or listen to Professor Kurt? Or compromise?
