

Workshop report

Guidelines and their valid indicators

8/Feb/2020
Martina Teichert
Kenji Fujita

What did we learn?

- ✓ The concept of measuring quality of care
- ✓ Major issues to develop indicators for pharmaceutical care

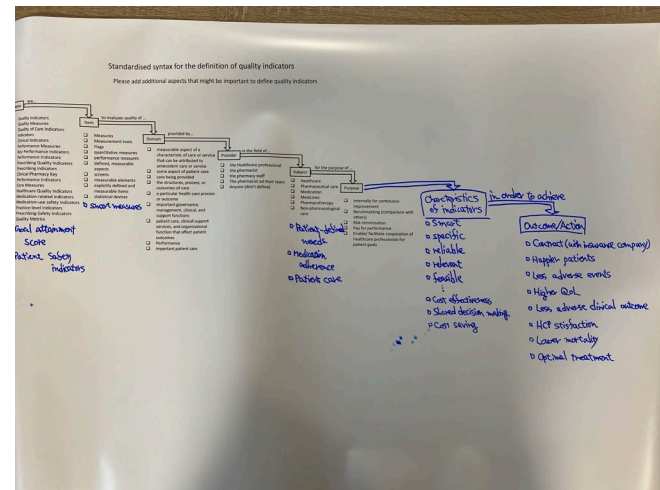

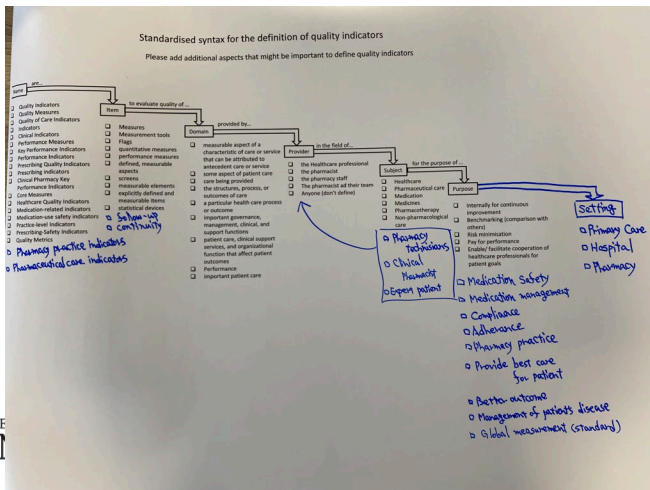

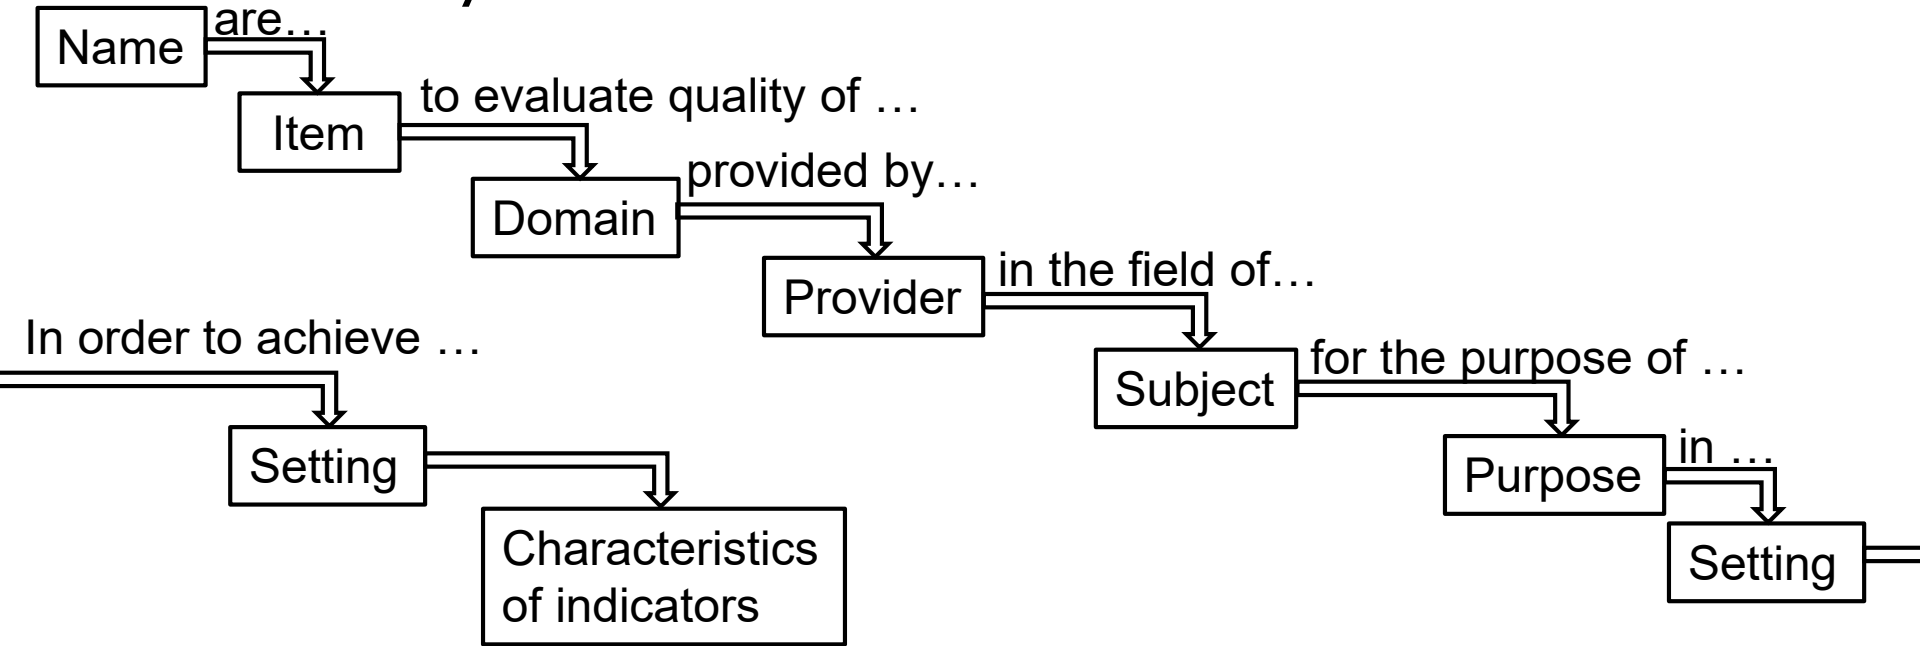

What did we do?

- ✓ Compare indicator availability and use across countries
- ✓ Develop a syntax for indicator definitions
- ✓ Translate guideline recommendations into indicators
- ✓ Develop indicators for Pharm care in diabetes

Deliverable 1

Syntax for indicator definitions

What did we learn?

- ✓ The concept of measuring quality of care
- ✓ Major issues to develop indicators for pharmaceutical care

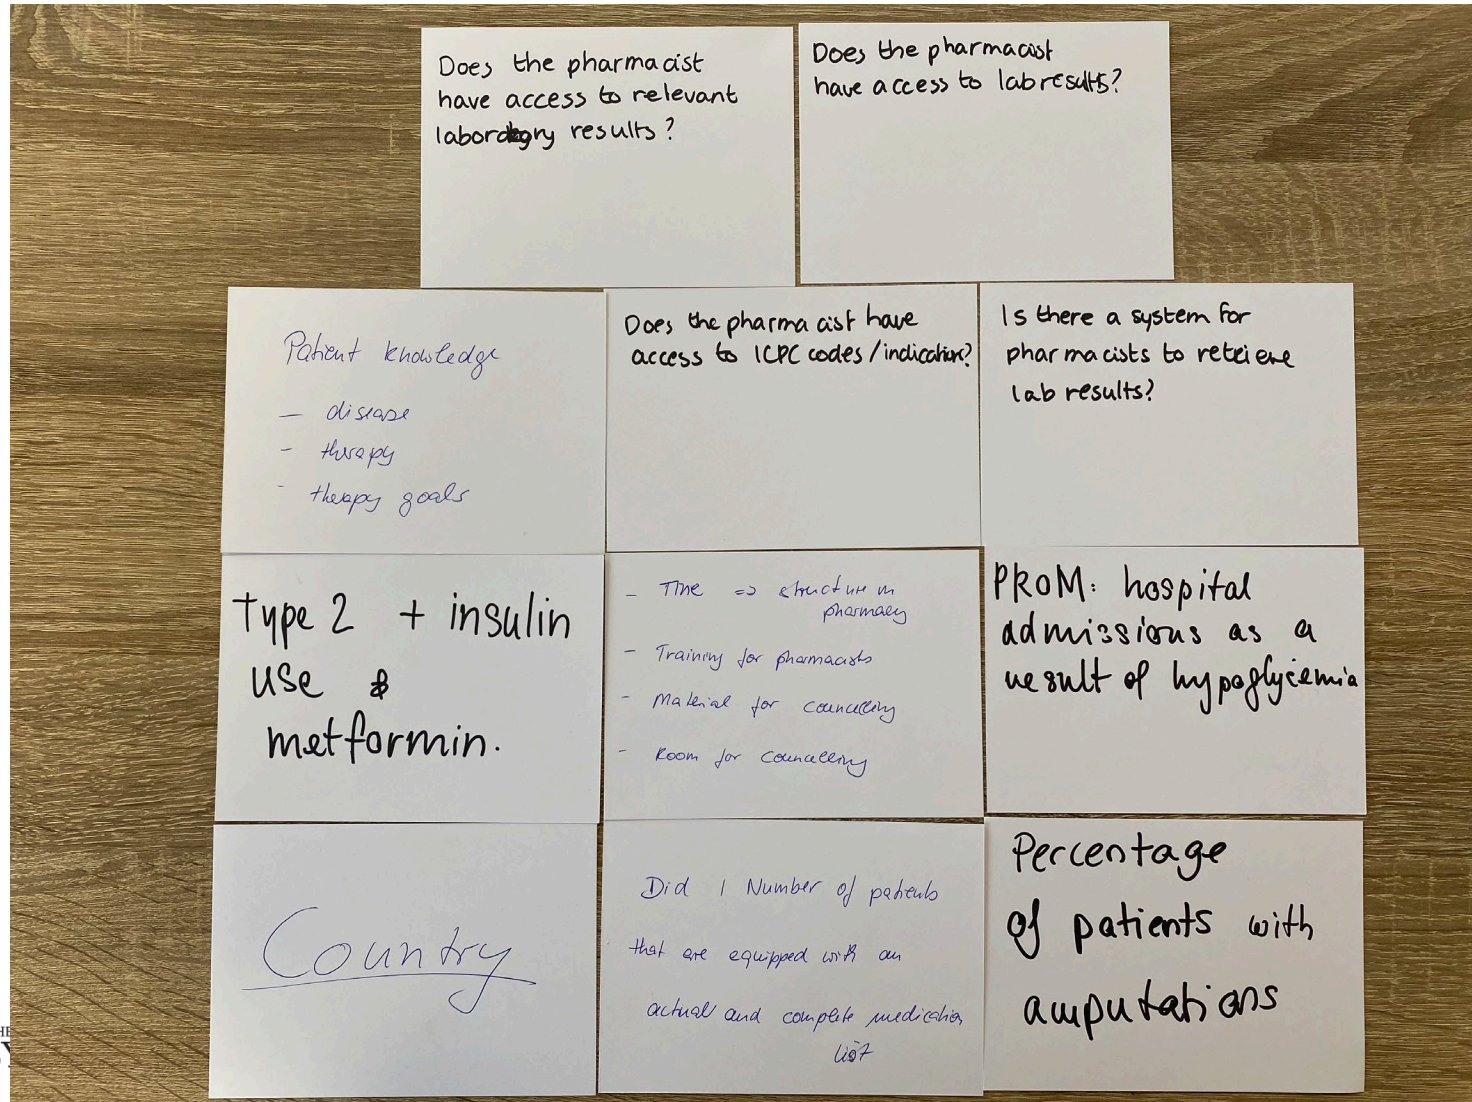

What did we do?

- ✓ Compare indicator availability and use across countries
- ✓ Develop a syntax for indicator definitions
- ✓ Translate guideline recommendations into indicators
- ✓ Develop indicators for Pharm care in diabetes

Deliverable 2

A set of indicators for Pharm care in diabetes
